Telephone: +254702293572

E-mail: mr.josephodhiambo@proton.me

I'm a technically versatile and solutions-driven developer with hands-on experience across full-stack web development, server management, and digital product optimization. I build systems that are not only functional but efficient — from Laravel-based apps and WordPress sites to custom UI experiences using modern tools. I thrive on solving practical problems, automating workflows, and delivering polished, user-friendly results.

CAREER OBJECTIVE

To join a dynamic and growth-oriented institution that allows me to leverage my software development, teaching, and leadership skills while continuously learning and contributing to innovative digital solutions aligned with company, economic and societal goals.
